Hello,

I am submitting a comment in support of the Copper Flat mine.

The United States needs responsible domestic production of natural resources. The Copper Flat mine will produce copper and other valuable metals in New Mexico and will strengthen communities and bring in valuable tax revenues while operating according to all applicable state and federal regulations. This project will also provide much needed direct employment in Sierra County and bring work to many supporting sectors that will be a positive impact throughout the state.

I have reviewed the BLM's DEIS and I am writing to let you know that I believe it's a thorough document and does a good job evaluating impacts of the proposed operation of Copper Flat. I support the timely and environmentally responsible operation of Copper Flat Mine and believe it will be good for area.

Regards

Andrew Maloney
